

# The 2019 Smilefast Pro Course

## Smilefast™

Discover the most comprehensive short term cosmetic **orthodontic training for dentists**

**Book now for March and September 2019 courses**

Make your CPD count in 2019 and give patients what they want – straight teeth in a short period of time using cost competitive aesthetic appliances – with Smilefast Pro orthodontic training for dentists.

Integrate orthodontics into your practice with ease by bringing your practice manager or dental assistant to Smilefast Pro at **NO COST**

## TAKE ADVANTAGE OF THESE GREAT BENEFITS

### **Undertake Quality CPD Accredited Training**

Including online training delivered in advance of Smilefast Pro Course, providing the opportunity to capitalize on an intense two day in-class learning.

### **Treat Orthodontic Patients with Confidence**

For doctors with limited knowledge of orthodontics, but would like to take on orthodontic patients, Smilefast Pro is an ideal stepping stone to completing The OrthoED Institute's two year Orthodontic Mini Masters Program or individual course modules to take your orthodontics to an elite level.

### **Expand Professionally**

Develop knowledge, skill and confidence to treat 70% of adult patients and provide them with outstanding cosmetic outcomes.

### **Generate New Practice Revenue**

Generate a new profitable revenue stream for your dental practice delivering the Smilefast orthodontic solution to your adult patients.

### **Receive Total Support**

Provided and delivered via our secure online portal, and with oversight from fully trained practitioners and specialist orthodontist.

### **Learn Effective Case Management**

With technical support from our Smilefast team, production, billing, and administration, dentists accelerate their learning of case management and grow in confidence.

### **Access Smilefast Online Web-based Portal**

Access an extensive library of resources, including Quick Reference Guide outlining treatment flowcharts, forms, and all information required to treat patients.

### **Create Smarter, Faster Smiles**

Provide doctors with correct and simple orthodontic diagnosis, allowing them to treat only those patients that you can deliver consistent, quality outcomes using minimal treatment times and doctor chairside time using aesthetic orthodontic appliances.
